Following a meeting with representatives of the Church of Scientology and their sending us more information, it was concluded that they were entitled to mandatory rate relief. Attached is a letter sent to their solicitor today, confirming their entitlement. I understand that the building will be occupied from this Sunday.

[REDACTED]

Carla has been informed that the building will officially open for business on Sunday 22 October.

Please arrange for an inspection to be carried out as soon as possible after that date and for a detailed inspection report to be passed to me.

Thanks

The above building has been empty for some time. It is listed and exempt. I understand that the building is soon to be occupied by the Church of Scientology Religious Education College Inc. The building is due to be officially 'opened' in October.

The Church of Scientology Religious Education College Inc have applied for charitable rate relief and we are in the process of establishing whether or not they will qualify for relief.

Please arrange for a detailed inspection record to be made when they commence occupation of the building and for a copy of the WEF to be passed to me.

Thanks

Richard,

I have spoken to [REDACTED] and told him that we would grant mandatory relief, that I would be out of the office until next Monday but would write to him then. [REDACTED]

Subject: THE CHURCH OF SCIENTOLOGY 146 QUEEN VICTORIA STREET

Peter:

As I mentioned to you at lunchtime, I met with three representatives of the above Church, and their solicitor, this afternoon in Guildhall. They had requested the meeting with me, as the Alderman for the Ward in which the building is located, and I agreed to meet them on that basis.

For the sake of good order, I would be grateful if Carla could place a copy of this email on her files.

This email summarises the position as explained to me, and the advice which I gave:

The Church advised me that they had sought mandatory relief, and that Carla had declined this on 16 Jan. [REDACTED]

[REDACTED] If mandatory relief is due, it would be granted, and if not, the Corporation would say so, and why.

I was showered with propaganda leaflets and DVDs which I have given into the custody of [REDACTED], since they may be of import in determine whether the Church should qualify.

The meeting was cordial and lasted one hour.

Ian

[REDACTED] rang (solicitor for the above)

They are not planning to occupy the City property for some months so he would like to arrange for us to visit them in Westminster.

He suggested early July any date between 1st and 8th. I have already told him you are not available on the 7th or 8th. He would prefer it to be either late morning or early afternoon.

Let me know when is convenient for you.

[REDACTED]
