Dear Mr Wagstaff

Freedom of Information Act 2000 – Review of Request Numbers 489, 464, 593 and 597

I have now had the opportunity to submit your review requests regarding the above-mentioned Freedom of Information Requests to the Core Management Team (CMT).

CMT were of the view that the Council has provided you with all the relevant information regarding request number 489. They undertook, however, to ensure that a copy of the policy will be forwarded to you once it has been formally agreed by Council.

With regard to request 464, the Council has already apologised to you for failing to acknowledge your request for an internal review, and CMT are of the view that there is nothing further to add to this as all relevant information has been provided. The file formats you refer to have not been sent by West Lindsey, and are generated by 'what do they know.com' website. I would confirm however that they simply relate to a signature.

Request 597 was in relation to the Housing Inspection Report and CMT would advise that our Publication Scheme is regularly updated and the Audit Commission report will be included at that time. As a matter of course we will now include a link on our website to the Audit Commission site, and CMT would like to thank you for drawing this to our attention. I understand that you now have a copy of the report, and the remainder of your questions will be responded to.

With regard to request number 593, CMT are of the view that the decision notice should have been a refusal notice as all this information is publicly available on our website, other than to advise that the Committee Administration team administers claims for payment. I would also clarify that I have been unable to trace any other previous request for this information.
