Dear Mr Crouch

Freedom of Information: Right to know request

Thank you for your request for information regarding illegal broadcasting in Greater London between January 2005 and November 2012 which we received on 11 December 2012 and have considered under the Freedom of Information Act 2000. I apologise for the delay in responding to you. I have answered your questions in turn below.

Please note the following information does not include information pre 2007, unless stated. Information pre 2007 on illegal broadcasting is held on Ofcom's archived system and is not readily accessible as a considerable amount of time would be needed to locate, retrieve, identify and extract any relevant information. Section 12 of the Act provides that a public authority is not obliged to comply with a request for information if the authority estimates that the cost of complying with the request would exceed the "appropriate limit". The appropriate limit is set out in the Freedom of Information and Data Protection (Appropriate Limit and Fees) Regulations 2004, and is, for Ofcom, £450. That sum is intended to cover the estimated costs involved in determining whether Ofcom holds the information requested, identifying, locating, retrieving and extracting the information from any document containing it. The Regulations provide that costs are to be estimated at a rate of £25 per person per hour.

Greater London is comprised of the following areas:

1. How many prosecutions against individuals have taken place between the specified dates?

YEAR	CONVICTIONS
2007	23
2008	14
2009	13
2010	17
2011	8
2012	5

2. Out of the number of persons identified, how many have had multiple prosecutions?

3

3. Please list the names of all the unlicensed broadcast stations and the number of times enforcement action has been carried against each of them, clearly showing the method of enforcement used (ie: studio raid, main transmitter removal, mobile telephones disconnected, website domain name blocking etc).

4. How many enforcement visits have been as a result from information supplied from members of the public or licence paying broadcasters?

Reports and complaints from the public can determine the level of action that Ofcom takes. However, we cannot easily attribute each single report to an enforcement operation.

Ofcom estimates that it would take at least 18 hours to identify, locate and extract the information you require for this question and as such section 12 of the Act applies, as explained above.

5. Please supply a breakdown of costs for each case of enforcement action carried out.

The information is not readily accessible as a considerable amount of time would be needed to locate, retrieve, identify and extract any relevant information. Therefore section 12 of the Act also applies here.

6. Please give details of any complaints or allegations made against Ofcom's staff in the enforcement section.

We can neither confirm nor deny that we hold information relating to this request in our archives. The information is not readily accessible as a considerable amount of time would be needed to locate, retrieve, identify and extract any relevant information. Section 12 of the Act applies.

7. Out of the unlicensed broadcast stations identified, if any have not had enforcement action against them please supply information as to why it hasn't taken place?

None.

8. How many reports of interference to safety of life services or aviation have been reported in the Greater London area between the dates stated above, if any please state which authority reported it and if the interference was proven to be attributed to pirate radio?

The reports below were proven to be attributed to illegal broadcast stations. Data pre 2009 is not readily accessible as a considerable amount of time would be needed to locate, retrieve, identify and extract any relevant information. Therefore section 12 of the Act also applies here.

Please see below for 2009, 2010, 2011 and 2012 data. 'SOL' means Safety of Life.
