Address:	request-17148-20689947@whatdotheyknow.com
Request	I am writing to request a listing of all The Chancellor's expenses broken down by claim and/or receipt for the previous 12 months up until this request is answered. Where such expenses include hospitality, accommodation etc your response should include details of the establishment at which such expense was incurred.

Thank you for your request.

The Chancellor has not submitted any expense claims in the last 12 months. The catering and transport for events hosted or attended by the Chancellor, including receptions, dinners and lectures, have been provided or paid for direct by the collegiate University. For example, he makes use of the University car for events in Oxford. (This car is available to other senior members of the University.) During the last 12 months, he went on five overseas trips that included University events, in addition to other unrelated business. The cost of these international flights was met by other organisations or the Chancellor himself.
