

An amendment to the current Enforcement Guidelines regarding London Taxis and PHV's on the TLRN

Taxis and Private Hire Vehicles stopping at ATMs

With immediate effect, Traffic Enforcement will be conducting a trial of new arrangements whereby London Taxi and London Private Hire Vehicles can stop and wait for a passenger to use a cashpoint.

- The concession only applies between the hours of 22:00 and 06:00
- A period of 5 minutes concession will be allowed to determine if the activity has taken place.
- This does not apply to pedestrian clearways, Zig-Zags, Bus Cages with Wide Red Lines or where a vehicle is seen to be causing an obstruction or safety hazard.
- PHV's must display both the current TfL Roundel and License stickers

Please note:

This is being introduced primarily to address passenger concerns around late night safety when they need to withdraw cash to pay drivers.

TfL are working with the taxi industry to encourage the use of credit and debit card machines in taxis.
