Response to James Connely

IT suppliers and charges

Request

1. I would like to request a complete list of suppliers/contractors and consultants that have been used over the past year when procuring IT hardware and the total spend on IT hardware during the past year.
2. Also could you break this hardware spend down to show what brand servers, networking and desktop hardware were purchased with a spend amount in each segment.
3. I would also like to request full details of the person(s) who conduct the IT purchasing there.

Total Spend for Hampshire Primary Care Trust on the procurement of IT hardware in the last year:

£1,844,000 (£1.85m rounded up)

- 2. Also could you break this hardware spend down to show what brand servers, networking and desktop hardware were purchased with a spend amount in each segment.**

Due to the nature of Hampshire PCT's accounting system and its inability to capture description lines of invoices the only way to break down spend is by subjective coding. As all hardware is coded to the same subjective code we are unable to break this down any further.

In respect of brands, we predominantly buy:

Servers: HP
PCs & Laptops: HP or Dell
Networking Equipment: CISCO

- 3. I would also like to request full details of the person(s) who conduct the IT purchasing there.**
