

## **EXPLANATORY NOTE RELATING TO EXPERIAN'S PROCESSING OF THE ELECTORAL REGISTER**

When Experian processes the full Electoral Register for a local authority in order to identify potential multi-occupancy it does not purport to do so under Regulation 114 of the Representation of the People (England and Wales) Regulations 2001, but does so as a processor of the relevant local authority. This is made expressly clear in Experian's contracts. For practical reasons (particularly relating to security), the copy of the Electoral Register used in these circumstances may be the copy which Experian holds for its Regulation 114 purposes.
