I don't think there's much for us to respond on, because it's so general. We did suggest some time back that the Code could in some way address the register question but AC wanted a high level document that didn't get into such specific detail. On that basis, and given the way it's written, I don't see there's much for us to comment on unless others have views.

For information. I have read through this quickly and it is quite general. 2.8 goes into some detail about the information that should be provided to an individual where their personal data is processed, relevant to the question of whether further information should be made available to electors when applying for registration.

**Subject:** NFI - Code of Data Matching Practice for Consultation

Dear Louise and Mark

In light of our recent discussions regarding NFI and the matching of electoral register data, I thought you might be interested in our consultation on the new proposed Code of Data Matching Practice (weblink below).

<http://www.audit-commission.gov.uk/nfi/codeofdmp/>

Please feel free to respond to this document as you feel appropriate, and to bring it to the attention of others who you are aware may also wish to respond.

Kind regards  
Jennifer
