Dear Mr Canning

Access to Information Request – Information not held – RFI #620

Thank you for your request for information about:

“Please supply all the information that you hold on the EX-Peregrine falcon nest site at Chattlehope Burn, Kielder [near Catclough Reservoir on the A68 to the Scottish Boarder] that was monitored by Brian Little for the Forestry Commission. I am especially interested in the numbered of people that were licensed to disturb the nest site in 1992 to 1993 and the information people sent in on the EX-nest site over the years. I am especially interested if you can confirm that the nest site in question always had four egg clutches and the fact that the 1992 records on the number of eggs laid were not submitted in 1992 yet the years before and after 1992 were submitted until the site was taken over by ravens?”

which we received on 21 November 2009. Your request has been considered under the Environmental Information Regulations 2004.

Following a search of our paper and electronic records, I have been informed by the Licensing Unit at our Bristol office and our Bird of Prey Specialist in Peterborough that the information you requested is not held by Natural England.
