Dear Mr Fitzsimmons

Freedom of information request – RFI20150492

Thank you for your request under the Freedom of Information Act 2000 (“the Act”) dated 26th March 2015 requesting the following information:-

I would like to know the quantity, by title, of copies of each national newspaper purchased by the BBC in the most recent year for which figures are available.

For the purposes of this FOI request, please note:

- The BBC’s commercial subsidiaries are not subject to the Act (see section 6(1)(b)(ii) of the Act) and therefore, their data has not been included in the information disclosed.
- Information relating to the purchase of newspapers for programme-making purposes is excluded from the Act because it is held for the purposes of ‘journalism, art or literature’. However, as it would be difficult for us to separate out this information from the non-programme related spend, we are happy to include this in the overall figures.

Due to the size of these operations, newspaper deliveries to BBC buildings for the relevant periods were, for the most part, made via the BBC’s managed service arrangement. Outside of this arrangement newspapers may have been delivered to BBC buildings by local newsagents. We do not hold a central record of any deliveries made by local newsagents and we would therefore need to contact all BBC offices and departments to establish whether there were any local arrangements. I estimate that to locate this information would take more than two and a half days; under section 12 of the Act, we are allowed to refuse to handle the request if it would exceed the appropriate limit. The appropriate limit has been set by the Regulations (SI 2004/3244) as being £450 (equivalent to two and a half days work, at an hourly rate of £25).

Please find in the table below the information which we are able to provide within the above specified limit. This is the total number of national newspapers delivered through the BBC's managed service provider to BBC buildings for the period 1st January 2014 to 31st December 2014. Please note that our managed service provider includes Saturday editions in the 'dailies' numbers.

If you plan to publish or broadcast a story using the information provided in this response please include the following statement from the BBC.

A BBC spokesman said:

"The largest number of newspapers delivered come from News UK. As an impartial international news broadcaster with 3 rolling TV news channels, 28 foreign language services, daily paper reviews as well as various radio and TV current affairs programmes our viewers rightly expect our presenters, journalists and expert contributors to be across all the day's stories in all the UK newspapers.

"The BBC has secured a discount through its service contract ensuring value for money."
