Dear Mr Bettelley

Access to Information Request - Acknowledgement – RFI #653

Thank you for your request for information below:

“Could Natural England confirm that they have been involved in developing such a mitigation strategy, and when it might be completed to their satisfaction?”

which we received on 19th January 2010. We are dealing with your request under the Environmental Information Regulations 2004.

We are currently considering the implications of the planning application for features of biodiversity importance at Greenwich Park and the extent to which the proposed mitigation in the Environmental Statement addresses any adverse impacts, and awaiting the close of the planning window before providing our formal response to the application. Natural England understands this date to be the 27th January but this is subject to change. We will make this formal response available to you.

If you have any queries about this letter please contact me.

Yours sincerely

Ben Heathcote
