Dear Registrar,

BBC Education and Communities Partnership: Connect & Create

I am delighted to confirm details of the partnership between our organisations. We are delighted to support the learning and development of the students working with you and feel confident that we will identify some of the very best talent in the region in the process.

I have enclosed two signed copies of the Partnership Agreement for your signature and two copies of the Trade Mark Licence. Both these documents exist to formalise the partnership, though individuals in both our organisations will of course be key to developing and growing our relationship over the 3 year life time of the Partnership.

We are very much looking forward to working with you and thank you and your teams for your ongoing support for the BBC. In return we will ensure that your students get the best possible opportunity from the work with us.

To finalise the agreement please sign and return one copy of both the Agreement and Trade Mark Licence. The address to send both to is:

Clare Proffitt
BBC
Room 2046
Oxford Road
Manchester M60 1SJ

I will email a draft press release which you are welcome to use to let local press and other partners you may have know about the work we are doing together.

If you would like us to try and arrange a formal event or photo opportunity to mark the signing of this agreement then please let Clare Proffitt know and we will try our best to assist with this.

Regards

Margaret McClelland
