Subject: Sunbeds - contact made today

Just to let you know that I was contacted today by Victoria Barton from Edelman. She had obtained my name from switchboard when asking for someone who deals with sunbeds (apparently she was also given the name of Alistair McNabb in Glasgow [no idea why]). Victoria told me that Consol Suncenter are one of their clients, and when they saw the oral PQ yesterday she wanted to find out more about the revised sunbeds guidance and the consultation exercise. She told me that Consol had been unaware of the work to revise the guidance and then consult. She asked for some history, so I told her we had been looking at the guidance over the last year with DH and some key stakeholders (eg CRUK and TSA), as the guidance was rather old and no longer reflected the current state of play in the industry. I told her I was in the middle of preparing the consultation exercise and we were aiming to start at the end of February. I told her we would be contacting known interested parties (Consol being one) to tell them about the consultation, and that we'd also be putting out a press alert to relevant trade journals. Victoria asked to be included on the consultation list along with Consol and left me her email address.
