  - (5) Authority / Northrop Grumman Contract No. 3333

Dear [Redacted],

Northrop Grumman is pleased to propose a firm price for Contract Change Note 050 Revision 1 (CCN050R1), “IDENT1 LANTERN Service Expansion” in response to the reference (1) and (2) requests. This CCN050R1 replaces the reference (3) proposal. As requested by NPIA, this CCN050R1 adds User Authentication, Service Level Agreements, Service Level Requirements and the PNC Warning flag capability to the mobile fingerprint readers (MFRs), implementation of additional central services, deployment, support and provision of service proposed in the reference (3) proposal. This revised proposal will provide expanded Lantern services in England and Wales for a quantity of either 1,500 or 2,500 MFRs for a three (3) year period of performance.

To maximise the Authority’s cost savings, this CCN050R1 allows the one time purchase of a three year service for the IDENT1 LANTERN Service Expansion” as shown in the table below.

| Service for MFR Quantity: | Total Service Price |
|---------------------------|---------------------|
| 1,500                     | £21,222,821         |
| 2,500                     | £27,540,517         |

Please note that these prices are only valid in conjunction with the payment profile proposed in this CCN.
