

SUFFOLK CONSTABULARY

NOT PROTECTIVELY MARKED

FREEDOM OF INFORMATION REQUEST

REQUEST NUMBER: F-2009-01252

REQUEST DETAILS:

"I am seeking any and all information you may hold concerning the National Attendance Management Forum in respect of police injury pensions.

To assist you in your search, please be advised that the National Attendance Management Forum meetings are or were held at the West Midlands Police Tally Ho! training centre. Suffolk Constabulary will have regularly sent a delegate or delegates to these meetings. At a meeting held on 12th October 2004 the delegates were Toni McCormack, Personnel Adviser and Amanda Parker, Personnel Manager. Delegates will most probably have been drawn from your force's Human Resources department or similar.

I understand from the Home Office that over a number of meetings a 'round the table discussion' took place concerning police injury pensions. I have asked the Home Office and West Midlands Police for certain information, but it would assist my research if Suffolk Constabulary were to supply documentary evidence of these discussions. I cannot readily identify what form any documents may take, so please interpret my request as widely as possible and include rather than exclude if you are in any doubt. Documents may include minutes, notes made by the delegates, handouts, papers, etc. etc. The relevant meetings will have taken place at some time before August 2004."

RESPONSE:

I can confirm the following in relation to your Freedom Of Information request:

Suffolk Constabulary does not hold the requested information. A member of HR attended the meeting in 2004 however due to them subsequently leaving the post and given that the meeting was over 4 years ago all notes/handouts/briefings would now have now been destroyed.
