Dear Mrs Havercroft

I am writing to you following your email dated 6th August 2011, requesting an internal review into the response that was provided to you regarding FOI 1112 119. A thorough investigation has now been undertaken to review this response and to ensure that all available and appropriate information has been provided to you.

Initially a review has been undertaken by those involved in the original response. Subsequently, as Chief Executive of NHS Bristol I have fully reviewed all of the information and I am able to provide you with the following response.

Whilst we stand by our initial response to you, we do feel that we may be able to provide you with some clarity to our responses, please find these listed below.

2 – We do not hold information on which providers offer one stop clinics; this is due to the fact that services are no longer classified as one stop clinics. This is confirmed in the ASWCS guidelines section 3.2 page 15.

3 – As explained above we do not hold information on which providers offer one stop clinics.

3 – We do not have a service specification for one stop clinics, due to the reasons identified in Q2, all services are run on the principles of the triple assessment.

4 – Again please see our response to Q2. All services provide a triple assessment service where clinically appropriate. Details of this can be found in the national guidelines on page 14 – 16. I have attached these for your information and can confirm that they were adopted at the Breast SSG on 22nd June 2011.

5 – This information is not held by ASWCS or NHS Bristol. In order to obtain this information you will need to contact the provider services.
