For the attention of: [REDACTED]

Dear Mr [REDACTED],

CLOSED BRANCH LINES MINOR WORKS – BOK1/283 – PROVIDE CONFINED SPACES ACCESS ASSISTANCE TO JACOBS.

Further to your quotation for the above works I am pleased to advise you that your price of £11,097.20 has been accepted.

You should note that we will not pay for any works unless it has been specifically authorised in writing within the terms of the agreement.

Please note the works are to be undertaken under the Works Framework Contract 2020-2027 and the conditions of contract for these works are the *NEC4 Engineering and Construction Contract*.

Invoices should be e-mailed to invoices@highwaysengland.co.uk quoting the Purchase Agreement number, Release number and Receipt number. These details will be provided to you by the Historical Railways Estate team as works are certified.

You can also contact the Accounts Payable team at fspaymentqueries@highwaysengland.co.uk, telephone: 0300 470 3002 if you have any queries regarding invoicing and payments.

I trust the above is acceptable. The agreed Start Date is the 4th January 2022. The Completion Date is the 29th April 2022.

Should you wish to discuss the matter further please contact [REDACTED] the Project Manager, Historical Railways Estate on [REDACTED].

Yours sincerely,

[Redacted signature]

Historical Railways Estate - Minor Works Request

Historical England - Historical Railways Estate (HRE) invites you to tender under the Historical Railways Estate Works Framework Contract to provide the services described below. The Form of Contract is the NEC4 Framework Contract (June 2017 with amendments January 2019) Option A.

1. Project Details

To: **AMCO-Giffen**

Date issued: **17 November 2021**

Description of the Site

Route: **Broad Street - Dalston West Junction.**

Structure: **BOK1/283** 2 Miles 3 Chains ID: 2192

OS Ref: **TQ336847** **Dalston Lane**

Works Description:

Confined spaces access and safe system of works to facilitate entry by Jacobs engineers in order to undertake an examination of the inside of the structure.

To also include personal confined spaces equipment for the Jacobs engineers, safe access (winch has been used previously) and rescue support.

Structure is located in busy part of London. The structure has an 18t capacity beneath the road but only a 3t capacity beneath the paved area.

Access via a single manhole, negligible air flow, so potential for forced air venting.

4. Site Information

Access:

Balvac access hazards - dumped debris at country end prevents examination - access to LE via Murphy site compound after Kingsland Road - Murphy also hold keys for access into tunnel itself - DE dated 8/12/9 access to L/E of structure via TfL compound in Roseberry Place, all access to be arranged through TfL.

Report dated 11/6/12 advises both ends of tunnel backfilled, entry via manhole and tripod / winch from London end.

Examiners revised risk assesment now classes as tunnel 19a class 1 which requires full confined space rescue team - INL 31/12/2013
