Dear Sir / Madam,

At the Council meeting in November Chorley Council agreed a Notice of Motion recognising the scale and urgency of the global challenge from climate change, as documented by the latest Special Report of the Intergovernmental Panel on Climate Change, and declared a climate emergency.

As part of this I agreed to write to yourselves calling for the creation, provision or devolution of powers and resources to make achievement of the target to make Chorley carbon neutral by 2030 possible.

Yours sincerely

Councillor Alistair Bradley  
Executive Leader, Chorley Council
