24 October 2012

Dear SAM,

Your request was received on 15 October 2012 and I am dealing with it under the terms of the Freedom of Information Act 2000 ('the Act').

You asked for:

*"The total number of applications received by the university for consideration for the Post Graduate or higher level courses from the Indian Sub-Continent for the following academic year 2012, 2011, 2010 & 2009 and the number of applicants who actually enrolled.*

*I anticipate that the best way to provide this information is to have a spreadsheet divided up into the individual years, and each year in turn being divided up into the individual courses (which must have their course code next to them)."*

I attach tables setting out the data requested for entry to graduate-level courses managed by the Graduate Admissions Office of the Student Registry, as held in our central student records system, for each of the academic years 2009-10, 2010-11 and 2011-12. The information for 2012-13 (i.e. the current academic year) is not yet held as graduate-level courses start at various points throughout the academic year.

The University has taken your phrase 'from the Indian Sub-Continent' to mean individuals with citizenship of the six countries Bangladesh, Bhutan, India, Nepal, Pakistan and Sri Lanka. The tables show the number of students applying to each course with these citizenships and the number of those whose applications were accepted (confirmed). It includes current graduate students applying to move on to a higher level of graduate study at the University (e.g. from an MPhil course to a PhD). Where the number in the 'applied' or 'accepted' column is between 1 and 3 inclusive (but not zero), this has been shown as '1 to 3' to prevent the risk of any individual student being identified. In presenting the information in this way, the University is engaging the exemption at section 40(3)(a)(i) of the Act

Registrary's Office

because the University contends that its release would breach the first data protection principle (the fair and lawful processing of personal data) as set out in Schedule 1 of the Data Protection Act 1998. This part of section 40 confers absolute exemption under the Act. At the end of the three tables for each of the academic years there is a separate table of course codes. Please note that for many course titles there are multiple codes listed; this is because there can be considerable in-year administrative changes to course codes. Current course codes are published on our graduate admissions website by following the links at:

Please note that the attached document should not be copied, reproduced or used except in accordance with the law of copyright.

If you are unhappy with the service you have received in relation to your request and wish to make a complaint or request an internal review of this decision, you should write to Dr Kirsty Allen, Head of the Registrary's Office, quoting the reference above, at The Old Schools, Trinity Lane, Cambridge, CB2 1TN or send an email marked for her attention to [foi@admin.cam.ac.uk](mailto:foi@admin.cam.ac.uk). The University would normally expect to receive your request for an internal review within 40 working days of the date of this letter and reserves the right not to review a decision where there has been undue delay in raising a complaint. If you are not content with the outcome of your review, you may apply directly to the Information Commissioner for a decision. Generally, the Information Commissioner cannot make a decision unless you have exhausted the complaints procedure provided by the University. The Information Commissioner may be contacted at: The Information Commissioner's Office, Wycliffe House, Water Lane, Wilmslow, Cheshire, SK9 5AF (<http://www.ico.gov.uk>).

Yours sincerely,

James Knapton
