		<p>For the attention of <b>PERSONAL DETAILS REDACTED</b></p> <p><b>PERSONAL DETAILS REDACTED</b>, we spoke previously about my previous request (Reference No: <b>PERSONAL DETAILS REDACTED</b>) which you considered would exceed the cost limit. I have included this reference for your convenience in case it assists you. Following our conversation I have amended a number of questions and I thank you for the clarity you were able to give.</p> <p>I have also decided to make two separate requests. I understand each of my requests are very different in terms of their objectives given the questions in each and so separating them will ensure that a response to one set of questions is not held up if the other set of questions are considered to be more contentious. If it is more convenient for you to respond to each of the requests together then please do so.</p>

----

I am making this request to the Metropolitan Police Service as the lead force for the NDEU. I understand the NDEU sits within the MPS Special Operations Unit and that it offers support to other police forces.

The recent Court of Appeal case of **PERSONAL DETAILS REDACTED** ascertained that **PERSONAL DETAILS REDACTED** was a peaceful protesters who had the right to privacy. It determined that the information held on him did not serve the public interest in a sufficiently important way and so it was held that continued retention of his information was a disproportionate breach of his right to privacy.

I understand that ACPO have petitioned the Supreme Court to hear an appeal. ACPO have suggested that no guidance has been given by ACPO to the MPS. The following questions assume that the MPS has been proactive in amending their procedure so to comply with the law.

I would like to see;

(1) All guidance, if any, given within the MPS and NDEU to ensure compliance with the judgement. In particular I would like to see any documents which detail how the NDEU complies with the judgement.

I would like to know:

(2) Who is responsible for this compliance? If this is an individual I request their name.

(3) What time scale has been given for compliance with the judgement?

Civil Procedure Rules 52.7 [2] states that unless (a) the appeal court or the lower court orders otherwise... an appeal shall not operate as a stay of any order or decision of the lower court. Having reviewed the judgement it would seem that the lower court (Court of Appeal) have not granted a stay or execution. Nor can I find any evidence that the appeal court (Supreme Court) have ordered a stay. If no guidance has been given to ensure compliance with the Catt judgement I would like to know;

(4) Whether or not this is because of a stay or execution?

It may be that a stay of execution was requested and made by the lower court (Court of Appeal) separate to the judgement or made to the appeal court (Supreme Court) and is not publicly available. If this is not the case, and no stay exists, I would like to know;

			<p>(5) Who is responsible for compliance issues at the NDEU?</p> <p>(6) What explanation they (or the person responsible for overall compliance at MPS) can give for failure to comply with the judgement.</p>

If there are any reports outlining MPS' plans for policing the funeral, intelligence etc. ahead of the event that can be released, that'd also be appreciated.</p>

04-Dec-13	06-Jan-14	General Public	<p>As you will be aware, the College of Policing has just finished their public consultation on the code of ethics for the police service. We await the outcomes of this process. Meanwhile, I am researching into what training and development officers and staff receive in ethical practice (and related matters). However, I am interested to find out what more formalised development your colleagues are receiving, as well as some indicators of success.</p> <p>Specifically, please could you answer the following questions:</p> <ol style="list-style-type: none"> <li>1. Beyond taking into account any retrospective disciplinary action, is ethical practice integrated proactively into promotion boards and job interviews? If yes, please may I have a copy of the relevant policy or document relating to this?</p> <p>7. How many instances have there been in the last five years where officers or staff have (to quote the draft code) used their "professional position to establish or pursue a sexual or improper emotional relationship with a person with whom [they came] into contact in the course" of their work and who was "vulnerable to an abuse of trust or power" ?</p> <p>8. The draft code states that every person has a "positive obligation to report, challenge or take action against the conduct of colleagues" which is believed by the person to have "fallen below the Standards of Professional Behaviour set out in this Code" . How many instances have there been in the last five years of where someone has done this officially (and for which there is a record)?</p>

16-Dec-13	16-Jan-14	General Public	<p>Below is a request for information under the Freedom of Information Act 2000. The request broadly concerns reported crimes on Transport for London bus network.</p> <p>My general interest is to understand the frequency and types of reported crimes on each of the bus routes operated by Transport for London.</p> <p>I believe there is a strong public interest in improving the public's understanding of where and when crimes commonly occur and in showing whether crime in those places is rising or falling.</p> <p>My request</p> <p>In the public interest spirit described above, I am requesting information about crimes that are reported to have taken place on the Transport for London bus network.</p> <p>For each reported crime, I would like to know:</p> <p>1 - The time and date of the reported crime</p> <p>2 - The bus route on which the reported crime was alleged to have taken place (I would ask that you use the route numbers used by Transport for London)</p> <p>3 - Where possible, the geographical location of the reported crime</p> <p>4 - A description of what crime was reported to have taken place (for example, if a knife was involved, if a person was stabbed, if vandalism took place and so on).</p> <p>Data Protection</p> <p>I would request that you redact any information that could serve to identify any individuals or prejudice an individual's right to a fair trial. I am merely requesting generalised data about the type, location and time and date of crime (as detailed in points 1-4 above).</p> <p>Time range and data format</p>

		<p>I would like to receive the information for the period 1 January 2010 until the date that this request is fulfilled.</p> <p>In the case that this exceeds the cost limits stated under the Freedom of Information Act 2000, I would ask that you contact me to advise me of this: in such a case I would request the information for the maximum period possible within the cost limits, up until the date that this request is fulfilled.</p> <p>I would like to receive the information in an electronic format, preferably in a delimited text format, as is standard for most database software.</p> <p>If there is anything I can do to clarify my request, or to ensure that it falls within the cost limits, please do not hesitate to get in touch with me via email or my mobile phone number below.</p> <p>I would appreciate if you could provide written acknowledgement that you have received this request.</p>	
16-Dec-13	16-Jan-14	General Public	<p>Below is a request for information under the Freedom of Information Act 2000. The request broadly concerns occasions where a officer of the Metropolitan Police Service (MPS) has shot an individual with a firearm.</p> <p>My general interest is to understand the proportion of officers who have found themselves in such a situation and to what extent these types of operations are limited to a tiny minority of Metropolitan Police Service officers.</p> <p>I believe there is a strong public interest in improving the public's understanding of how common shootings are within the Metropolitan Police Service, especially in light of the public debate and the rioting that followed the shooting of Mark Duggan.</p> <p>It is only with hard facts can we have a proper debate about the use of firearms by the Metropolitan Police Service and it is extremely important that we have this debate so that the public can make an informed judgment about this issue.</p> <p>My request</p> <p>In the public interest spirit described above, I am requesting the following information:</p>

1 – The number of Metropolitan Police Service officers, who are currently employed by the MPS, who have shot another individual in the course of their work for the Metropolitan Police Service.

2 – For each of the MPS officers, who are currently employed by the MPS and who have shot another individual in the course of their work for the Metropolitan Police Service, I would like to know the total number of individuals that the Metropolitan Police Service officer has shot in the course of their work for the Metropolitan Police Service.

For the purposes of this Freedom of Information request, I am defining the act of shooting as using a firearm to fire a bullet which then struck another person.

#### Section 30

I believe you may attempt to invoke an exemption for this information under Section 30 of the Freedom of Information Act 2000.

Quoting from the Ministry of Justice's guidance on Section 30:

Section 30 is concerned primarily with preserving the integrity of certain proceedings and investigations conducted by public authorities.

There are two ways in which the application of section 30 may be triggered:

- where information has at any time been held for the purpose of specified criminal and other investigations or proceedings
- where information relates to the obtaining of information from confidential sources and was obtained or recorded for specified investigations or proceedings.

The MOJ's advice goes on to say:

At the heart of this exemption lies the importance of public confidence in the investigations and litigation to which it refers.

Crucial to this is confidence in being able to provide information to the police, HM Revenue and Customs and to other public authorities by individuals and organisations in confidence.

It is clear that the generalised information that I am requesting would not in any prejudice the confidence of individuals that information they provide to the police, HM Revenue and Customs and to other public authorities would be kept in confidence.

The information I am requesting does not regard confidential sources, nor does it regard information obtained or recorded for specified investigations, nor would it have bearing on specified criminal investigations or proceedings.

As you will be aware, investigations and proceedings, criminal or otherwise, must be based on the specifics of that particular situation and general, abstract and extremely anonymised information about officers of the MPS would not have any impact on specific investigations and proceedings.

#### Section 31

I believe you may alternatively attempt to invoke an exemption for this information under Section 31 of the Freedom of Information Act 2000.

Quoting from the Ministry of Justice's guidance on Section 31:

Section 31 of the Freedom of Information Act provides that:

1. Information which is not exempt information by virtue of section 30 is exempt information if its disclosure under this Act would, or would be likely to, prejudice-

- (a) the prevention or detection of crime,
- (b) the apprehension or prosecution of offenders,
- (c) the administration of justice,
- (d) the assessment or collection of any tax or duty or of any imposition of a similar nature.
- (e) the operation of the immigration controls,
- (f) the maintenance of security and good order in prisons or in other institutions where persons are lawfully detained,

(g) the exercise by any public authority of its functions for any of the purposes specified in subsection (2),

(h) any civil proceedings which are brought by or on behalf of a public authority and arise out of an investigation conducted, for any of the purposes specified in subsection (2), by or on behalf of the authority by virtue of Her Majesty's prerogative or by virtue of powers conferred by or under an enactment, or

(i) any inquiry held under the Fatal Accidents and Sudden Deaths Inquiries (Scotland) Act 1976 to the extent that the inquiry arises out of an investigation conducted, for any of the purposes specified in subsection (2), by or on behalf of the authority by virtue of Her Majesty's prerogative or by virtue of powers conferred by or under an enactment

In the case of a) the anonymised information I am requesting does not in any way prejudice the ability of the MPS to prevent or detect crime. The information I am requesting does not betray the details of any MPS operations, capabilities or strategies and does not provide any information that might give an advantage to those wishing to commit crimes. With specific regard to betraying MPS capabilities, it is already in the public domain that "more than 2,700 MPS officers are authorized to use guns"

In the case of b) I would make the same argument as in a). The anonymous and generalised information I am requesting does not betray any details of MPS operations, capabilities or strategies. Again with specific regard to betraying MPS capabilities, it is already in the public domain that "more than 2,700 MPS officers are authorized to use guns".

In the case of c), this information cannot be said to have any bearing on specific criminal or civil cases in courts of law. The information is highly general, highly anonymous and does not serve to identify or prejudice specific incidents that may be the subject of proceedings in a court of law. Therefore disclosure of the information would not and would not be likely to prejudice the administration of justice.

In the case of d), the information I am requesting clearly does not regard any tax-related matters.

In the case of e), the information I am requesting clearly does not regard any immigration-related matters.

In the case of f), the information I am requesting is would not and would not be likely to prejudice the maintenance of security and good order in prisons or in other institutions where persons are lawfully detained. The information does not concern prisons or other institutions where persons are lawfully detained. It is possible, but highly unlikely, that specific information about specific actions taken by the

MPS might have some bearing on morale and behaviour in prisons or other institutions where persons are lawfully detained. However, the information I am requesting is highly abstract, generalised and anonymous and therefore would not have any bearing on morale and behaviour in prisons or other institutions where persons are lawfully detained.

In the case of g), I have dealt with each of the purposes defined in subsection 2 below.

In the case of h), any such incident where a officer of the MPS had shot an individual would clearly not fall under the area of "civil proceedings". In addition, please see where I have dealt with each of the purposes defined in subsection 2 below.

In the case of i), this would not apply as the Fatal Accidents and Sudden Deaths Inquiries (Scotland) Act 1976 only applies in Scotland and not in other jurisdictions. In addition, please see where I have dealt with each of the purposes defined in subsection 2 below.

#### Subsection 2

The purposes referred to in subsection (1)(g) to (i) are-

- (a) the purpose of ascertaining whether any person has failed to comply with the law,
- (b) the purpose of ascertaining whether any person is responsible for any conduct which is improper,
- (c) the purpose of ascertaining whether circumstances which would justify regulatory action in pursuance of any enactment exist or may arise,
- (d) the purpose of ascertaining a person's fitness or competence in relation to the management of bodies corporate or in relation to any profession or other activity which he is, or seeks to become, authorised to carry on,
- (e) the purpose of ascertaining the cause of an accident,
- (f) the purpose of protecting charities against misconduct or mismanagement (whether by trustees or other persons) in their administration,
- (g) the purpose of protecting the property of charities from loss or misapplication,

(h) the purpose of recovering the property of charities,

(i) the purpose of securing the health, safety and welfare of persons at work, and

(j) the purpose of protecting persons other than persons at work against risk to health or safety arising out of or in connection with the actions of persons at work

In the case of a) abstract, generalised and anonymous information like that I am requesting does not serve to identify any person and it does not make any suggestion towards the legality or illegality of a person's actions. The number of individuals a MPS officer has shot has no bearing on whether any person has failed to comply with the law.

In the case of b) I would make a similar argument to a). Abstract, generalised and anonymous information like that I am requesting does not serve to identify any person and it does not make any suggestion towards the whether any person's conduct was improper. The number of individuals a MPS officer has shot has no bearing on whether any person has behaved improperly.

In the case of c) the type of information that might prejudice the task of ascertaining whether circumstances which would justify regulatory action in pursuance of any enactment exist or may arise would have to contain contextual and specific information about those circumstances.

For example, in the case of the use of firearms by MPS officers, this would include information about whether the firearms were used according to MPS guidelines, what actions had been taken before the use of the firearm and so on.

Disclosing the information I am requesting would not be enough to ascertain whether circumstances which would justify statutory regulatory action exist. In order to do that one would have to look at the specifics of each shooting, and that would not be possible with the information I am requesting.

In the case of d) the information I am requesting is anonymous in the extreme, generalised and specific. You will not that I have not even requested whether each MPS officer is male or female. Therefore this information could not prejudice the process of ascertaining the fitness or competence of those MPS officers. Indeed the number of persons shot, even if would identify an MPS officer, which it clearly would not, would not in itself have a bearing on the fitness of competence of that MPS officer as it does not carry any suggestion of improper or incompetent behaviour.

In the case of e) the information I am requesting does not have any bearing on the cause of any accidents as it is highly general and abstract.

In the case of f), g) and h) the information I am requesting clearly does not concern charities.

In the case of i) and j) disclosure of the information I am requesting would not prejudice the securing of the health, safety and welfare of any persons at work as it does not identify any individuals.

Additionally, there is already widespread public knowledge that some officers of the MPS have shot other individuals, and in some cases killed those individuals. The type of information that could further inflame public opinion of the MPS would pertain to specific acts, potentially where the person shot by the officer of the MPS was identified. For example, disclosures about the killing of Mark Duggan may serve to inflame public opinion around that case, thus potentially leading to heightened hostility towards MPS officers.

However, this is not the type of information I am requesting. My request concerns abstract, general and anonymous information. It offers no information about specific individuals or communities and no information about specific acts.

For example, it is often said in the case of war, that when one person dies it is a tragedy but when hundreds of thousands die it is a statistic. The point of that saying is to point out the truth that statistics do not inflame human emotions. I am requesting statistics, not information about specific tragedies.

#### Section 38

I believe you may also attempt to invoke an exemption for this information under Section 38 of the Freedom of Information Act 2000.

Quoting from the Ministry of Justice's guidance on Section 38:

Section 38 applies to information that if disclosed would be likely to put the physical or mental health or the safety of any individual at risk or greater risk.

The individual does not need to be identifiable and may be a member of the public, where the danger is to the health or safety of the public at large.

The exemption can apply equally to a group or class of people who could have their health and safety adversely affected by disclosure.

In the first part, disclosure of the information I am requesting would not serve to identify any individual and therefore it cannot be invoked.

In the second part, any danger would not be to the health or safety of the public at large, and so it cannot be invoked either.

In the third part, officers of the MPS with authorization to use firearms could be said to be a “group or class of people”

However, disclosure would not adversely affect their health and safety.

I would start by repeating the arguments that I made for the case of Section 31, subsection two, parts i) and j). I won't copy and paste them again but please see above.

Furthermore, although officers of the MPS with authorization to use firearms could be said to be a “group or class of people”, disclosure of the information I am requesting would not allow those officers to be “identified or located and consequently targeted” as noted in the MOJ's guidance. The information is anonymous, generalised and abstract in the extreme. It also does not involve the identities of any undercover officers.

Additionally this type of disclosure cannot be said to provide “shock or distress” to those MPS officers. They themselves will know the numbers of persons they have shot and will know that the information disclosed cannot serve to allow public identification of them.

#### Section 40

Finally, I believe you may also attempt to invoke an exemption for this information under Section 40 of the Freedom of Information Act 2000.

Quoting from the Ministry of Justice's guidance on Section 40:

Section 40 of the Freedom of Information Act applies to:

- requests for the personal data of the applicant him or herself
- requests for the personal data of someone else (a third party)

20-Dec-13	22-Jan-14	<p>General Public</p> <p>MPS,</p> <p>I am seeking information, concerning the Neighbourhood Policing Units (NPU) within each respective BCU, in the following format:</p> <p>Column 1 - BCU:</p> <p>London Borough Name</p> <p>In reference to C1, I mean all the BCUs within the MPS, including Westminster: which I believe are all the London Boroughs plus Westminster and not including the City of London.</p> <p>Column 2 - Amount of PC/DC ranks attached to each respective BCU as of 20/12/2013:</p> <p>For example, all Officers of PC/DC within a BCU regardless of role.</p> <p>Column 3 - Amount of PC/DC ranks attached to each NPU under each, and every, BCU as of 20/12/2013:</p>

		<p>For example, I mean all Officers of PC/DC rank in the NPU within each respective BCU. So, this would not mean a DC working in, for example Lewisham, under the Specialist Crime and Operations Directorate: it would mean, however, an Officer of DC rank who is under the NPU for Lewisham.</p> <p>Column 4 - The amount of PC/DC ranks the MPS strategically seeks within each NPU within each, and every, BCU by 12/2014:</p> <p>For example, I mean, hypothetically, the MPS strategically want: 1500 Officers, of PC/DC rank, within Lewisham NPU; 1300 Officers, of PC/DC rank, within Greenwich; and so on for each NPU within every BCU by December 2014.</p> <p>Column 5 - In regards to Q/C 4, if there is a increase, or decrease, for the MPS's strategically desired NPUs Officer numbers (PC/DC rank by December 2014), within each respective BCU, please present this as a percentage change:</p> <p>For example, if the NPU of the Lewisham BCU is currently at 1000 (for attached Officers of PC/DC rank) and 1500 is being sought, by December 2014, over the long term strategic plan of the MPS, it would be a percentage of 50%+: furthermore, for example, if Greenwich NPU was currently 2500 and the MPS strategically sought only 1000 Officer it would be a percentage change of 60%-.</p>
