Spads commented that they were happy with BNR's approach, and that they are not convinced there has been 'wrongdoing' on PO's part.

I have a couple of concerns with the revised letters which I am highlighting here. I appreciate that the Minister has approved the drafting but I think it is important that Ministers are aware of the nuance. I have highlighted these in the attached document and summarised below.

Letter to Tim Parker: A small suggested change around the means by which Tim is expected to respond to the Minister.

Thanks for your help with this. With some further changes, we now have versions of all three letters that BNR is content with – please see attached.

[Redacted] - as discussed, please could these go in SoS' box today. Please note the letter in the sub is no longer current and can be replaced by that in the standalone document, which also includes two additional letters drafted as per BNR's request following the original sub – one to Tim Parker and one to [Redacted]
