Dear Professor Younger and Dr Westaway,

I'm writing to see if it might be possible for RT to arrange a short interview with either of you to talk about the impact that fracking laws are having on the shale gas industry in the UK and the need to relax the rules, permitting companies to create larger tremors.

We would be able to book a studio at BBC Glasgow for the interview and arrange transport if needed. We'd need 10 minutes for the interview at any time today you were available. If that were not an option we could also film the interview via skype.

I hope that this will be possible and I look forward to hearing back from you.
