

1. **How you procure Construction Consultancy Services** :- Depending on the scale of services required they are either procured through an open OJEU process or if the value is below this threshold via a group of consultants who have known experience in a specific area.
2. **How you procure Construction Contractors**:- There is a minimum requirement for all contractors to be on Construction line and members of Contractors Health and Safety Assessment Scheme. If the value falls within OJEU rules then the formal open process is followed. If not then the work is generally tendered traditionally.
3. **If by your own framework, please tell me**:- We have searched our records and the information you requested is not held. We do not have any frameworks for contractors or consultants.
 - a. **The titles and content of the relevant frameworks**:- Not held
