Dear Mr Carroll

Freedom of Information Request – Rhodia and Thermphos

Please accept my apologies for the delay in providing you with the information you requested below:

1. Can you confirm what hazardous substance consents are in operation for this site for Rhodia and Thermphos.
2. A list of the hazardous substances and the allowed quantities that are allowed to be stored at the site?
3. The UN and Kemlar codes for these substances and the nature of their hazard classification and risk phrases and safety phrases e.g flammability, toxicity and effects in the environment.

It has been confirmed to us that there is no reference to a property called Thermphos on our Hazardous Substances Consent Register. Apart from Rhodia, the only other property in Trinity Street, Oldbury marked on the Register is Rosier Services. All necessary consents are in place and all properties are regularly inspected by the HSE.

Please find attached copies of all application forms for Hazardous Substances Consent made by Rhodia and Rosier Services. The application forms detail the types of chemicals and quantities applied for to be stored on each site.

In regards to question 3, our Officer does not hold this information. He suggests that you approach the HSE for guidance regarding this information. Their Birmingham Office address is:

No 1 Hagley Road
Birmingham
B16 8HS

Governance Services
Sandwell Council House, Oldbury, Sandwell, West Midlands B69 3DE

Yours sincerely

Angela Goddard
Data Protection/Freedom of Information Assistant
