Dear ██████████

BROCKHAM OILFIELD, FELTONS FARM, BROCKHAM

I refer to the above site and previous correspondence with yourselves and your representatives. This letter is to confirm the County Council's position in respect of the BRX-Z4 Sidetrack well following the receipt of Counsel's advice.

The final version of ██████████ opinion in respect of the planning situation at Brockham Oilfield has confirmed the following:

- 1) BRX-4 was drilled lawfully but is now in breach of planning control with an outstanding requirement to close the well and restore the land;
- 2) Sidetrack BRX-4Z is unauthorised exploratory development;
- 3) Production from BRX-4/BRX-4Z would be unlawful if undertaken without the express grant of planning permission.

Through very constructive discussions with your representative, I understand that notwithstanding your publicly stated legal position, you do intend to submit a planning application in order to move matters forward. The County Council would welcome this and will work proactively with you in progressing this approach.

We will continue to work with Angus Energy PLC to take matters forward. In the meantime if you have any queries, please do not hesitate to contact me.

Yours Sincerely,

Caroline Smith
Planning Development Manager
