Dear Mr Carroll

Request for information – Rattlechain lagoon waste returns,

Thank you for your email requesting information about the above.

(i) Could you confirm when your information held on file starts from in respect of the quantities of waste deposited at the site for each category of waste permitted by the licence, baring in mind that the company claims a year of "acquisition" of the site in 1948, but from my own private research when Albright and Wilson were a Ministry of Supply contracted factory the first year of use for the site was 1942.

Our information held on the site begins from the issue of the licence in January 1978 until the site closed for the reception of waste in March 2006. We have no records on the types or quantities of wastes deposited in the site prior to the issue of the licence.

(ii) Have you calculated the figures for each waste type by totting up the figures received from the companies from start of license to close of tipping in 2006?

Yes.

(iii) Can you confirm the years when returns for Inert solid waste contaminated with elemental phosphorus 1,182.35 tonnes were filed until- e.g. from start of license until which date?

The last reported deposit of this waste type was in October 1997.

(iv) Can you confirm the years when returns for Water contaminated with elemental phosphorus or phosphoric acid or sulphur 3,550.96 tonnes were filed until- e.g. from start of license until which date?

The last reported deposit of this type of waste was in October 1992.

Yours sincerely
