Dear Mr Carroll,

Re: FOI – Hazardous Waste License SL502 Duport Properties Ltd.

Thank you for your Freedom of Information Request of 11 October 2011. I can provide the following information:-

Question 1

- Q. Please provide by electronic means the full waste disposal site license SL502 issued to Duport Properties Ltd in the general area of Rose Lane, Tividale. Could you also provide a map of the site as it appeared and the area which it now occupies and summary of when the license was surrendered and the site remediated if indeed this was the case?
- A. Reference has been made to historic site records and it can be confirmed that an application was made in 1986, in respect of Waste Disposal License Application SL502. Correspondence dated 1 September 1986 issued by Johnson, Poole and Bloomer to Sandwell Metropolitan Borough Council confirms that with reference to SL502 *"In accordance with instructions received from our client, we request that the application for the Waste Disposal License be withdrawn."* Further correspondence from Walsall Metropolitan Borough – Environmental Health and Consumer Services Department – Hazardous Waste Unit, dated 29 September 1986 confirms that in response to the above request, the application for SL502 had been closed.

- A. As stated above, the application for SL502 was withdrawn prior to completion and as such was not applied to the site.

Question 3

- Q. Could you confirm that license SL502 contained within its provision of wastes contaminated with “bonded asbestos”.
- A. As stated above, the application for SL502 was withdrawn prior to completion and as such was not applied to the site.
