Thanks Peter – working on plans right now. It would be really helpful to touch base with you imminently.

James – Charlotte may have been in touch with you or will be very shortly.

Subject: Evushield

You don't often get email from [\[REDACTED\]@soton.ac.uk](#). [Learn why this is important](#)

Dear James, Lucy

There is clearly a lot of clinical unhappiness following the DHSC announcement on Evushield.

Do you think there would be any support for a targeted cohort, selecting subjects based on lack of antibody response to vaccination, to treat prophylactically, and generate real world evidence?

Best wishes

Peter
