15 August 2018

Dear Miss Jarvis,

Your request was received on 23 July 2018 and I am dealing with it under the terms of the Freedom of Information Act 2000 ('the Act').

You asked:

I would like to request data regarding A101 Admissions for the last 5 admissions cycles.

- 1. Degree title, degree classification and A-levels of applicants receiving an interview
- 2. The number of applicants who also submitted an extenuating circumstances form alongside their application
- 3. Degree title, degree classification and A-levels of applicants receiving an offer

The requested information, insofar as it is held, is attached. Information about interviews is not held; all interview processes for entry to undergraduate degree courses at the University are set and managed locally by each of the individual Colleges, each of which is a separate legal entity and public authority under the Act. We do not record whether or not an extenuating circumstances form was submitted with an application. Please note that the attached document should not be copied, reproduced or used except in accordance with the law of copyright.

If you are unhappy with the service you have received in relation to your request and wish to make a complaint or request an internal review of this decision, you should contact us quoting the reference number above. The University would normally expect to receive your request for an internal review within 40 working days of the date of this letter and reserves the right not to review a decision where there has been undue delay in raising a complaint. If you are not content with the outcome of your review, you may apply directly to the Information Commissioner for a decision. Generally, the Information Commissioner cannot make a decision unless you have exhausted the complaints procedure provided by the University. The Information Commissioner may be contacted at: The

The Old Schools Trinity Lane Cambridge, CB2 1TN

Yours sincerely,

James Knapton

	Data	1. Degree title, degree classification and A-levels of applicants receiving an interview 2. The number of applicants who also submitted an extenuating circumstances form alongside their application 3. Degree title, degree classification and A-levels of applicants receiving an offer
Request		If possible, please provide A-level and degree data in terms of each applicant i.e.; Student X: AAA, 2:1, BSc Chemistry (Hons) Student Y: AAB, 1st BSc Biochemistry (Hons) etc. rather than as two independent lists of raw data"

	Apply Year	Figures are grouped by UCAS application year. The 2017 application year ran from applications opening
	Арріу Геаі	in September 2016 to Confirmation in August 2017.
	Application	Applicant information has been anonymized, with each applicant assigned a dummy application
	Identifier	identifier.
Notes		Degree qualification information is declared by applicants through their UCAS application, and is not
		verified (verification of qualifications is undertaken by individual Colleges and not centrally recorded). A
	Qualifications	result of 'incomplete' indicates that the qualification was not yet complete at the point of application;
		there is no central record of subsequent grades/results, which would have been communicated directly
		to the applicant's College.
