RSC, Royal Society of Chemistry	£ -	£ -	£ -	None. No titles recorded as RSC.					
IOP, Institute of Physics Publishing	£ -	£ -	£ -	None. No titles recorded as IOP.					

(figures inc. VAT)

The figures should include payments made directly to the publishers as well as any payments made to subscription agents or intermediaries for the purchase of, and/or access to, the publishers' academic journals. They should also include payment for journal packages such as Jisc Collections agreements, as well as for individual journals. Please include VAT where possible, and indicate whether or not figures include VAT.

\* Although Springer Nature is the parent company for these two publishers, my understanding is that Springer journals and Nature journals are still paid for separately, so I think it makes sense to regard these as two different publishers with different expenditure amounts.
