

Requested information – responses to each question are given in bold-italic type:

Please could you supply the additional costs over the expected budget for residential waste collection and this be broken down by month since the introduction of fortnightly domestic refuse collection.

Please can this be detailed if possible for costs:

return visits to residential roads ***No additional resource – all done within existing service team***

Collections of waste "flytipped" near public waste Bins Collections of waste "flytipped" in unspecified public area ***No additional resource – all done within existing service team***

Also can you provide numbers for households that have had warnings and have now progressed to action

615 households have had warning notices for not presenting waste correctly, to date the council had not issued any Fixed Penalty Notices as residents have started to comply with the collection arrangements after the warning.

Finally can any additional costs incurred by recycling centers be detailed over and above the same period in 2016-2017 ***No additional costs incurred***
