Notes	Year of admission	Data has been provided for the three most recent complete admissions cycles: that is data for admissions in the 2021/21 to 2022/23 academic years
	Previous institution	Data has been prepared using the information that applicants provided in their application, as they provided it. Where individuals have attended more than one previous institution information has been provided for all institutions listed.
	Previous institution country	Applicants provide the "Country of study" for each previous institution they list. Data has been prepared using the information that applicants provided in their application, as they provided it. It should be noted that some of the data provided by applicants does not seem to accurately reflect the country of the institution stated.
	Degree classification	Degree classification is a self-reported free text field, and therefore we are unable to provide this information.
	Suppression	Data has been suppressed (<3) where the number of individuals is fewer than 3 (0, 1 or 2). This is to prevent identification of individual outcomes.
