Dear Michelle

I write in reply to your email requesting the information detailed above.

The information requested will be included in the annual statistics on undergraduate admissions published in May 2025 which are part of the University's Publication Scheme. We are therefore refusing your request under section 22 of the FOIA. Section 22 provides that information is exempt from disclosure where there is an intention on the part of the public authority or another body to publish it at a future date, and where it is reasonable in all the circumstances to maintain the publication schedule.

The exemption in section 22 is a qualified exemption that requires the University to weigh the public interest in disclosing the information requested, which is presumed from FOIA, against the public interest in maintaining the exemption.

We recognise that there is a general public interest in the disclosure of information relating to the University's admissions process and immediate disclosure of the information would contribute to that interest. However, the question to be decided is whether the public interest will be better served by disclosing the information now, or later, in accordance with the publication schedule. Our view is that the public interest would be better served by adhering to the publication schedule. Disclosing the information in isolation from other information relating to the [YEAR] admissions cycle would undermine the purpose of the University's publication scheme. This scheme provides for the publication of a wide range of information relating to each admissions cycle, which presents a more complete and accurate picture than the piecemeal disclosure of separate items of admissions data.

The information requested will be published on this page [Admissions statistics | University of Oxford](#)
