Dear Zhongbowen Cui

Freedom of information request

Thank you for your email of 9 April 2019 requesting information about admissions statistics for postgraduate degrees.

The University of Edinburgh is a global university, rooted in Scotland. We are globally recognised for our research, development and innovation and we have provided world-class teaching to our students for more than 425 years. We are the largest university in Scotland and in 2017/18 our annual revenue was £984 million, of which over £279 million was research income. We have over 41,000 students and more than 15,000 staff. We are a founding member of the UK's Russell Group of leading research universities and a member of the League of European Research Universities.

In 2018/19 the University has 15,854 taught and research postgraduate students studying full-time and part-time. We are committed to providing a wealth of resources and opportunities to enable our postgraduates to benefit from our inspiring research culture. Our academics are leaders in their fields and the University is also committed to delivering high-quality, innovative teaching. The latest report from the Quality Assurance Agency awarded us the highest rating possible for the quality of the student learning experience. More information on our [postgraduate degree programmes](#) is available on our website.

Postgraduate admissions statistics

You asked for a list of postgraduate programmes available in the 2017/18 and 2018/19 academic years, plus statistics showing applications, offers and entrants for each programme. We have interpreted your request as relating to postgraduate taught programmes offered by the University. If you would also like information relating to postgraduate research programmes please let me know.

The information you have requested is provided in tables 1 & 2 on the attached enclosures. You will see that I have not provided the exact number where the number is fewer than five. This is because disclosing these low numbers could enable individuals to be identified. This would breach the data protection principles set out in data

protection legislation. The Freedom of Information (Scotland) Act 2002 does not require us to provide this sort of information as it is exempt under section 38(1)(b).

Right to review

If you are dissatisfied with this response, you may ask the University to conduct a review of this decision by contacting the University's Records Management Section in writing (e.g. by letter or email) or in some other recorded form (e.g. audio or video tape). You should describe the original request, explain your grounds for dissatisfaction, and include an address for correspondence. You have 40 working days from receipt of this letter to submit a review request. The contact details for the Records Management Section are at the top of this letter. When the review process has been completed, if you are still dissatisfied, you may use the [Scottish Information Commissioner's guidance on making an appeal](#) to make an appeal to the Commissioner. If you do not have access to the Internet, please let me know and I will provide a copy of the relevant web pages.

Privacy notice for information request applicants

[The University of Edinburgh's request privacy notice](#), which describes how we use the information you have supplied about yourself and your request, is published on the University website.

Yours sincerely

Rob Don

Table notes:

- The 2017/18 data refers to the admissions cycle that concluded at the end of September 2017 for both immediate entry in the 2017/18 academic year, as well as for deferred entry in the 2018/19 academic year.
- The figures in the table show applications rather than applicants; one applicant can make more than one application in the same admissions cycle.
- A small number of programme areas may operate a multi-stage admissions process with application numbers only included in the admissions system at the final admission stage. This means some applications may not be included in the figures provided.

Table notes:

- The 2018/19 data refers to the admissions cycle that concluded at the end of September 2018 for both immediate entry in the 2018/19 academic year, as well as for deferred entry in the 2019/20 academic year.
- The figures in the table show applications rather than applicants; one applicant can make more than one application in the same admissions cycle.
- A small number of programme areas may operate a multi-stage admissions process with application numbers only included in the admissions system at the final admission stage. This means some applications may not be included in the figures provided.
