#### Notes

- All domiciles, all fee statuses.
- Main cycle applications only (i.e. excluding Clearing applications)
- Table 1 shows applications, Tables 2-4 are based on applicants: it is necessary to show applications in Table 1 in order to provide an accurate offer rate (as one applicant can receive multiple offers).
- Table 1 outcome of offers (columns 6 & 7):
  - (i) Conditional offers only.
  - (ii) Data provided is for those applicants who progressed to the confirmation stage only, i.e. excluding those who immediately declined a conditional offer or initially accepted a conditional offer but then didn't progress their application with us any further.
  - (iii) It is not possible to differentiate between those who met/exceeded their offer and those who didn't but whom were still offered a place so column 6 shows all those who had a conditional offer confirmed.
- Tables 2-4: Qualification records are not held for GCSEs or predicted grades (actual grades for the remainder are therefore provided).
