

# Operator Skills Hub

**Digital  
Physical**

**Balfour Beatty  
FLANNERY®**

## Our Vision

To offer best-in-class plant operator training that helps address the construction and infrastructure sectors' skills shortage and provide operators with the skills to deliver efficiently on modern-day, digitally enabled projects.

## Our commitments

The Operator Skills Hub will:

- Provide innovative, future focussed training solutions
- Equip people with the right skills and qualifications to safely deliver the UK's construction and infrastructure projects
- Encourage new entrants to - and improve the diversity of - the construction and infrastructure sector

## About Us

Established by Balfour Beatty Flannery, the Operator Skills Hub provides innovative, future-focussed training solutions for plant operators in the UK construction and infrastructure sector.

Partnering with education and infrastructure providers, we aim to create a diverse and inclusive sector by attracting the best talent and equipping our existing workforce with the skills required to deliver efficiently on a modern day, digitally enabled construction site.

Our purpose-built facility in Birmingham offers state-of-the-art training simulators as well as the latest semi-autonomous plant and equipment, specialist test areas and demonstration zones. The centre is accredited to Compliance Plus, CPCS, NOCN and IFATE and will be delivering the first Trailblazer Plant Operative Apprentices in 2021.

## What to expect

- **Immersive technology**  
Used effectively to attract new talent and "up-skill" existing operators.
- **Trailblazer apprenticeships**  
Engaging with local providers the Operator Skills Hub will deliver one of the first cohorts of this brand-new apprenticeship.
- **Operator finishing school**  
Additional, advanced training for new operators to compliment the CPCS syllabus and ensure they are "site-ready."

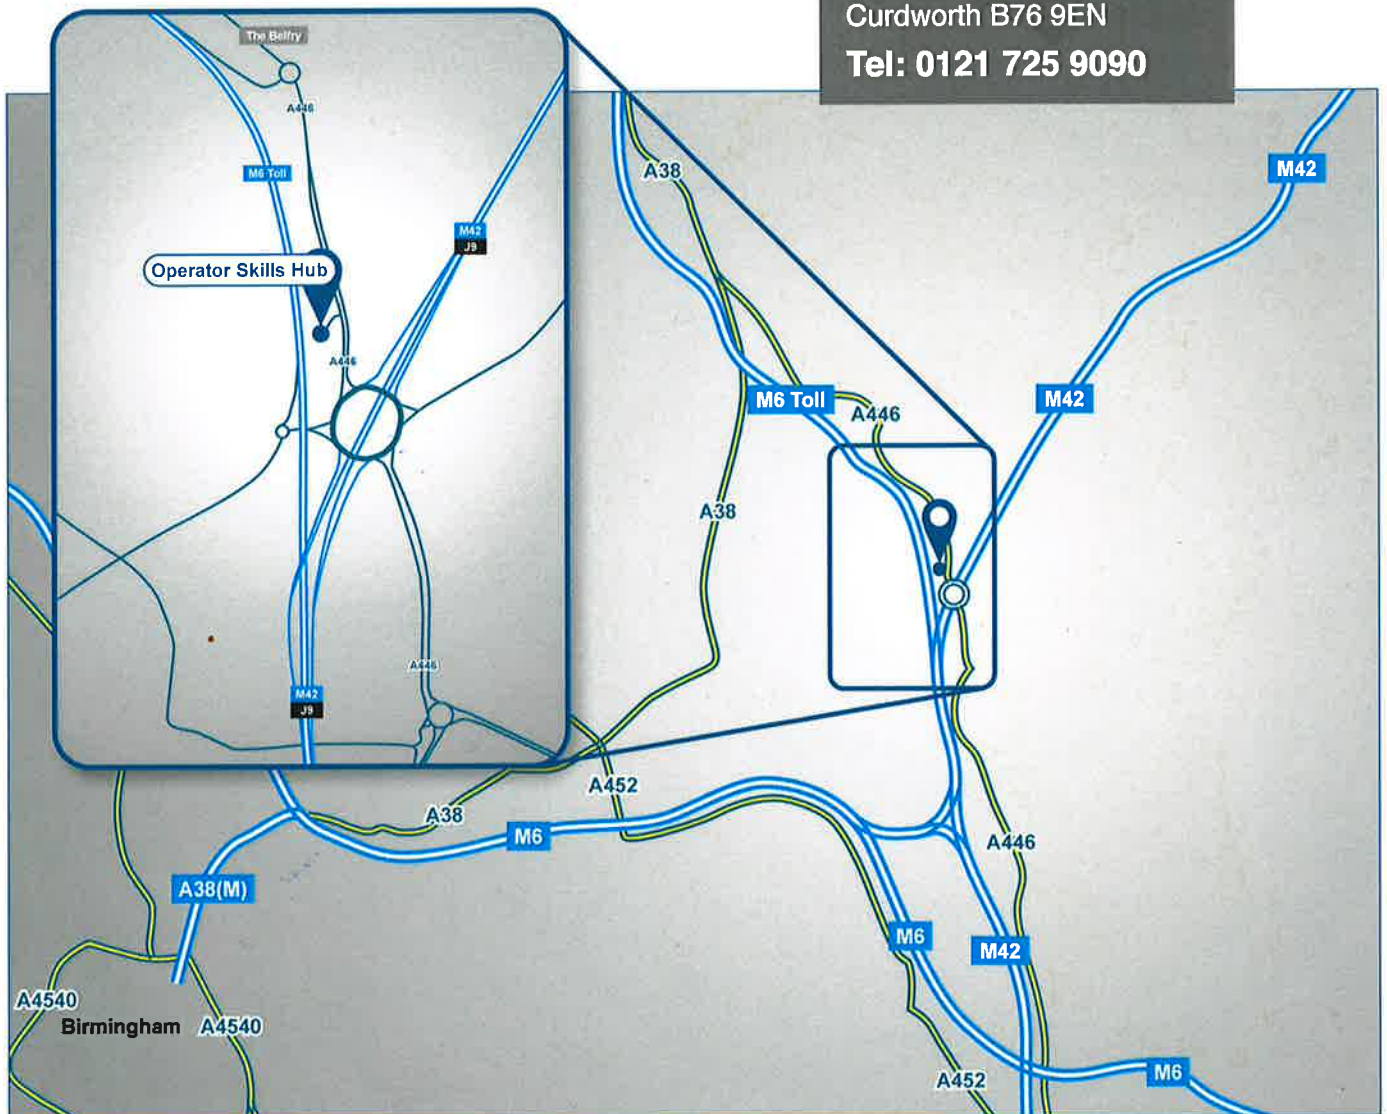

## Creating social value

The Operator Skills Hub supports the businesses and communities in its locality, as well as the wider construction and infrastructure sector by:

- Collaborating with the West Midlands Combined Authority, Greater Manchester Authority, and the Greater London Authority to recognise employment opportunities for local people.
- Ensuring newly qualified operators are ready to work on-site, maximising their employment opportunities.
- Increasing the retention of experienced operators by providing additional, focused training modules to enhance learning experiences and develop knowledge, skills and behaviours.
- Supporting local construction companies and regional plant hire companies with recruitment by improving the quality and availability of labour.
- Supporting local charities, by offering work opportunities and training opportunities to individuals looking for sustainable employment.

Dunton Wharf, Lichfield Rd,  
Curdworth B76 9EN  
Tel: 0121 725 9090
