Commandant CFS - Foreword

by
**Group Captain
Anthony Franklin RAF**

**Commandant
Central Flying School**

The Central Flying School (CFS) is an RAF led, tri-service organization whose mission is to deliver, develop and assure flying excellence for Defence. To reflect the tri-service nature, CFS AP3456 has been re-branded as The CFS Manual of Flying.

AP3456 has been in existence, in one form or another, since the formation of the Royal Air Force in 1918 and has evolved to become a major aviation reference work. It is used by the UK Military as the basis for flying training course handouts and specialist notes. Its focus is aimed at qualified flying instructors and front-line aircrew, particularly those studying for instrument ratings or instructor categorization. The AP is of benefit to all aviation students and I commend it as a ready reference to all those involved in aviation.

AP3456 is available in Adobe pdf format on the Defence Intranet and on the internet via the Defence Learning Environment.

AP3456 represents the corporate memory of aviation knowledge and basic flying skills within the UK Military Services. I value any feedback or comments you may wish to make to help develop and improve the publication. Please contact me through the AP3456 Editorial Office.

AP3456 Contact Details

If you are contacting the office to report an error in the AP, please refer to the Volume and Chapter number, plus the Chapter title. Please give as much detail as possible and include your name and contact details. E-mail is the preferred method.
