[REDACTED]

Since I've been here Crabtree Junior's PAN is 64 - 4 more than the infant school. I queried this with [REDACTED] last year when setting PANs and [REDACTED] said this was a long standing arrangement.

[REDACTED] spreadsheet showing PANs and local agreements over the last few years. Other planning officers or planning assistants should be able to point to it.

[REDACTED],

Yes, this likely.

Pauline - what would be the best source of data to know for sure?

Thanks

Guys

I have a proforma from DfE about the conversion of Crabtree Junior and Infants and one of the questions refers to the net capacity versus the NOR.

In the instance of Crabtree Junior the Net Capacity is 240 but the NOR is 257. . . did we as the Authority approve this over allocation to the school?

If you could let me know so I can respond I would be grateful.

cheers
