

18th January 2019

Dear Sirs

As Managing Director of Durrants Surveyors & Lettings Agents I am pleased to support the Coastal Community Team/Southwold Town Council funding application.

Although there is demand for small business premises in Southwold there is very limited supply (and at present no available premises).

As letting agents of holiday accommodation there is a substantial dip in holiday lettings outside of high season. To balance the economy of Southwold there is an obvious requirement for increasing the length of time of demand for such letting which can be assisted by the support from out of season events and programmes.

As a previous member of the Chamber of Trade there is a recognised benefit from the business community co-ordinating their experience and efforts and the provision of a Town Development Team would be extremely beneficial to both the Southwold community and the local economy in co-ordinating and galvanising these efforts.

Yours sincerely

  
Managing Director
