

IFA2 Airfield Compatibility

Reference No. FOI 2016/17-305

Dear Mrs Newsom

Further to your Freedom of Information request and our original response on 26 October 2016, I would like to apologise that the follow up to our response was not provided to you, which was an administrative oversight.

The attachment referred to in our original response was the Daedalus Masterplan of March 2016 and I attach this for your information.

Please may I highlight that the purpose of this document is to illustrate the full development potential of Solent Airport, such that the compatibility of the IFA2 scheme can be tested against the maximum potential of the airport. It has no planning status because it goes beyond the consented level of development outlined in 2011, and is purely an evolving landowner document to ensure that any new developments do not inadvertently limit opportunities in the future. Any development would need to be approved by the Local Planning Authority, irrespective of whether it falls within the amount of space already consented, or goes beyond it.

Please note that the Council cannot guarantee the accuracy of information supplied.

The information contained in this response is released under an Open Government License, which permits you to:

- Copy, publish, distribute and transmit the information;
- Adapt the information;
- Exploit the information commercially and non-commercially, for example, by combining it with other information or by including it in your own product or application.

Where you undertake any of the above however, you must acknowledge Fareham Borough Council as the source of the information in your product or application, and, where possible, provide a link to the Open Government Licence. You can find further information about those terms and conditions at:
