Asbestos Containing Sites - Total 65	,				I started	1

Important note:
Sites where no asbestos containing materials have been identified during survey/inspection works may still contain asbestos in inaccessible parts of the buildings such as floor ducts, voids, etc.

LBC therefore maintains asbestos logbooks and suitable safety procedures for all of the buildings listed as 'No' in the asbestos column above, with the exception of the two greenfield new build schools - Challney High School for Girls and Richmond hill East Campus.

Additional information:

Several of the sites listed are no longer under local authority control having opted for Academy status.
