14 July 2014

Rosemary

Thank you for your letter of 12 May regarding your proposals for the Scottish Government's self-assessment of its FOI and EIR reviews.

We welcome the proposals for an assessment project included with your letter. These have been taken into account in developing the Scottish Government's project brief for the self-assessment. I can confirm that we have now formally agreed to move ahead with the assessment and this will begin shortly.

I understand the FOI Unit have been in touch regarding the questions to be used in interviews and that you have also been involved in a discussion with a number of our FOI Champions about the self-assessment. The FOI Unit will liaise with you on taking the project forward over the coming months. I would like to thank you for the assistance you and your staff have offered us.

yours ever
Pete
