Notes	Apply/Entry Years	Apply Year - figures are grouped by UCAS application year. The 2022 application year ran from applications opening in September 2021 to Confirmation in August 2022. Entry Year - figures grouped by entry year includes standard entry applications from the 2022 application round and deferred entry applications from the 2020/2021 rounds.
	Application Changes	Please note that some applicants move between Colleges and Courses during the admissions round.
	Application Identifier	Applicant information has been anonymized, with each applicant assigned a dummy application identifier.
	Acceptances	The figures included reflect the number of accepted applicants i.e. applicants who have no outstanding offer conditions and have accepted Cambridge as their Firm choice institution via UCAS. Subsequent withdrawals are not taken into account and so these figures may differ slightly from actual entrant numbers.
	Qualification Profile	A Level Applicant - meets the criteria of sitting three or more A Levels. A Level Applicant (Predicted) - meets the criteria of declaring three or more predicted A Level results (i)GCSE Applicant - meets the criteria of sitting 6 or more GCSEs or iGCSEs. IB Applicant - meets the criteria of expecting an IB Overall Score. AP Applicant - meets the criteria of expecting five or more Advanced Placement Test results.
	Qualifications	Predicted - qualification information is provided as and if supplied in the relevant field on the UCAS reference. Declared - qualification information is declared by applicants through their UCAS application, and is not verified at the point of application. Verified - qualification information is based on verified results received from the relevant awarding body.
	ARP Winter Eligible	The August Reconsideration Pool (ARP) was a new process for the 2022 cycle. Previously, offers were made in August via UCAS Adjustment. The University of Cambridge used the Adjustment process from 2019 to 2021. Please note that the figures included here show all students who applied to Cambridge, were interviewed, and were notified of their potential eligibility to apply for ARP via their rejection letter in January. The figures do not distinguish applicants who later became eligible by meeting both the UCAS criteria of exceeding their firm offer and the Cambridge criteria of exceeding the typical offer for the subject applied for.
ARP August Eligible	Please note that the figures here show applicants who fulfilled all of the ARP eligibility criteria. These applicants met the contextual flags, UCAS eligibility and achieved at least the typical Cambridge offer for the course they applied for.
