

Freedom of Information – Response to Request

Reference No. FOI ID681

Set out below are details of a request for information held by the Council under the provisions of the Freedom of Information Act 2000 and the Council's response.

I would like to know whether the Authority has carried out any form of bin survey over the past five years.

Can the Authority provide the number of bin surveys it has conducted in each calendar year since 2014?

If applicable, can the Authority also provide the number of households subject to bin surveys in the same period?

And, can the Authority provide a brief description of the survey, such as the types of bins surveyed, or the title of the project?

For clarity, a bin survey is used to identify the types of rubbish being thrown away by households or which bins are being used, or both.

:: I would like to receive data in an Excel file format.

:: I would appreciate the Authority providing any assistance to me regarding my request, if appropriate and as per relevant legislation.

Epping Forest District Council have not carried out any bin surveys as per your request. (bin survey is used to identify the types of rubbish being thrown away by households or which bins are being used, or both.)

The only surveys like this are individual household surveys concerning the issue of a larger bin and we are unable to give a number of such surveys.
