

Hello All

Here is a mini briefing that may be useful to refer to if needed.

The strategic assessment can now be found on the South Cambs CSP page on Cambridgeshire Insight here:
<https://cambridgeshireinsight.org.uk/communitysafety/community-safety-partnerships/south-cambridgeshire/>

Rather than read all 40+ pages the key pages that may assist the Commissioner will be:

Summary on page 4.

High risk flag table – page 33

- Key points to take from the table are – our **CURRENT** key priority locations (These locations are CSP priority locations not necessarily police locations – however the current locations are very police oriented) are:
 - **Longstanton** – due to growth area of Northstowe (a new development of significant size – 24,400 residents once built – still in relatively early stages of building).
 - Current issues being tackled in this area – Antisocial behaviour and drug related activity.
 - **Histon and Impington** – busiest location in terms of recorded crime – predominantly relating to Orchard Park – Orchard park is a relatively new development (circa 10 years old) – it has approximately 2000 residents (although in a very small area) and is part of Histon and Impington Ward. Histon and Impington villages have an additional ~9000 residents on top of this. This ward has traditionally been our ‘busiest’ ward in terms of volume of crime.
 - **Cambourne** – Although not our busiest area it has seen significant offences in recent years, most notably a stabbing last year and a previous murder at the only pub in the Town. It is a very new town (by South Cambridgeshire standards – approx 17 years old) ~11,000 residents
 - Current issues being tackled by police in conjunction with partners in this location include
 - Tackling ongoing Antisocial behaviour within the town and working alongside schools to support youths that may be drawn into inappropriate / dangerous behaviours.
 - Working alongside town council and Fire service to tackle deliberate firesetting and flytipping
 - **Willingham** – This is a medium sized village approximately ~4000 residents in rural South Cambridgeshire. Perceived crime per capita in 2018 was high for this location due to a number of factors including a number of Ram raids on the village stores, Repeated and targeted ASB in the village and also a stabbing on the high street. Significant work was undertaken by the police and the local community groups to tackle these issues. This location remains a priority in terms of sustaining community faith in police response.
 - Current issues being tackled in this location include deliberate fire setting and ASB on green spaces.

Areas of planned growth in South Cambridgeshire – page 44

I hope this is helpful.

Additional issues that may be raised:

- Speeding
- Parking – We were pushing communities towards the
