Thank you both for your help with these questions! I have now been asked by the architect if I can arrange a meeting to discuss the new facility requirements in terms of bins, recycling, etc. Is this also something you can assist me with?

Best regards,

Hi [section 40(2) – FOIA] I have been ask by [section 40(2) – FOIA] to help out with your question. Firstly we do not do timed collection albeit we may get to the sites at a regular time (ish). We tell all our traders the bins have to be available from 06.30 to 19.00 Monday to Friday depending on the days we are in the area. The type of vehicles are 22 tonne or 26 tonne refuse compaction vehicles i.e. dustcarts. If you need any thing else like turning circles for these vehicles or pulling distances of bins please contact [section 40(2) – FOIA] and she can e/mail you all the details that we send to planers and developers for new sites.

Thanks

Hi [section 40(2) – FOIA],

A colleague of mine in the major projects team gave me your details, I hope that is okay! I am managing a project at Brunswick Park site to collocate a number of services, including a new health centre and library (replacing the existing facilities), children's centre and nursery. Brunswick Park School is also on the site but will not be rebuilt until a later phase. It is the current rubbish collection at the school that we need to understand as part of the transport portion of the planning application. I've been asked to find out what the rubbish collection times are and the type of vehicle used for the schools collection. Is this something you can help me with or perhaps redirect me to the appropriate person?

Many thanks for your help!

Best regards,
