Subject: Brunswick Park Community hub - access road
[section 40(2) – FOIA],

Just to bring you up to date on the latest regarding the access road at Brunswick Park. NHS Barnet had a pre-application meeting with the GLA on Tuesday where things went very well. However, one of the GLA's key concerns was the proposed new access road through the new bit of MOL. I had a follow up meeting with [section 40(2) – FOIA] from Highways and [section 40(2) – FOIA] yesterday to talk about the Planning and Development Forum (PDF) and the GLA meeting and to look at design. At the PDF residents raised concerns around security and in particular how the car park and access road would be managed, particularly once it linked to Brunswick Park Road. [section 40(2) – FOIA] advised that highways also have grave concerns about the access road in particular currently it would exit at the point in Brunswick Park Road where there is a zebra crossing and there is very little opportunity to either move the access or relocate the crossing. Having visited the site and spoken to refuse [section 40(2) – FOIA] is satisfied with the current servicing arrangements and subject to the provision of an adequate turning head could envisage that there would be no problem if the current set up was to continue in the future. Furthermore, by not creating a through road this helped in having a successful management strategy to manage traffic movements and car parking in this area helping to address residents concerns and also removes the concerns that the GLA have about the road in the MOL.

On this basis I have advised [section 40(2) – FOIA] to amend the indicative masterplans to remove the access road.

If you have any problems with this or wish to discuss the matter further then please do not hesitate to contact me
