

FOI Request 1364

Dear Warwickshire Primary Care Trust (PCT),

Please answer the following:

1. How many patients under the PCT were eligible for continuation of care funding between 2010-2011

1. For 2010 – 2011 we can only give the figure for newly eligible which is 673

2. What percentage (%) of these patients, allocated funding by the PCT, continued their care by being supported in their own home i.e. not residential

2. Due to new database we are unable to run a report on the old system to extract this data.

3. What was the total expenditure that the PCT allocated to continuation of care between 2010-2011, for patients who were eligible, to be cared for within their own home

3. £6,604,647.90

4. How does the PCT assist patients in identifying and accessing the best social care and nursing partners to support the patient in their own home. What is the process?

4. All patients are assessed using the National Framework for NHS Continuing Healthcare and NHS Funded Nursing Care to ensure needs are identified. Once their needs have been identified an appropriate contracted and accredited provider is sourced to deliver an appropriate level of care to meet the patient's needs.
