Dear [REDACTED] I understand you are busy and I have asked managers if you can send the info in daily via email as you are having to work the floor. As you are aware this was the original request to providers prior to us becoming a link worker while we are in the pandemic situation which is to gain info and support where possible?

PPE needs to be detailed as how many days' supply left and average daily usage if possible?

Deaths need to be recorded and cumulative and we need to know how many if any die at the home with symptoms as well as in hospital?

Can you call me tomorrow if you get chance please?

Thanks [REDACTED]
