COVID-19: admission and care of people in care homes webinar

Dear All

Please share widely with colleagues across health and care.

We face an unprecedented challenge in the weeks and months ahead to provide health and social care services that meet the needs of people affected by the COVID-19 virus. Care homes have a vital role to play in the UK, especially during the response to the COVID-19 pandemic. We want to support Care Home Providers to protect their staff and residents, ensuring that each person is getting the right care in the most appropriate setting for their needs. We know that to do this care homes need to have access to the right knowledge, staff and resources, so they are equipped to deliver care in this challenging time.

Join this interactive webinar to support the implementation of the Admission and care of residents during COVID-19 incident in a care home guidance. The webinar will consist of an overview of the guidance through short presentations, followed by opportunities for Q&A.

The webinars will be the same content run over four different sessions with the opportunity to ask questions and hear responses and we strongly encourage every system to have some representation in at least one of the sessions.

Who is this for?

The webinars will be of interest to all registered care home managers and deputies, local authorities, CCGs, community service providers and those working in hospital discharge settings.
